1 INTRODUCTION

The purpose of this statistical data report for **June 2015** is to inform society of the current situation of “.es” domains, providing important and useful information to help those taking current and future decisions.

The **.es** domains register fosters and promotes the use of the “.es” domain as a reference of the Spanish language on internet at an international level, with a potential market of more than 470 million Spanish speakers; it is a **quality** domain, **secure**, **easy to acquire and renew** and with the benefit of added value services such as an **out-of-court dispute resolution procedure**.

In drawing up this report, we have based our findings on information from:

- Webhosting.info, an organization that recompiles statistical data on TLDs at country level.
- Eurid.eu, the registry that manages the .eu country code top-level domain.
- Council of European National Top Level Domain Registries (CENTR).
- The Red.es database.
